RANGE GUIDE 2021

An evolution in RIB design...

Highfield inflatables have evolved from over 25 years of development in some of the toughest conditions in the world – the Great Barrier Reef of tropical Northern Australia. As direct descendants of the aluminium hulled Australian Swift range of commercial RIBs, they're tough, reliable and thoroughly tested.

Aluminium has long been the hull material of choice in many parts of the world due to its strength, ease of repair, versatility and above all its weight saving characteristics. Remember, because aluminium won't soak up water, your Highfield will weigh the same in 10 years as it did the day it left the showroom.

The environmental credentials of aluminium are impressive too. A lighter boat needs less power to propel it through the water, which in turn requires less fuel and lowers emissions. Couple this to the fact that the hull is totally recyclable and you can see that a Highfield RIB is an environmentally sound choice.

To ensure the long life of your Highfield RIB, we only use top quality materials. High tensile, marine-grade aluminium is powder coated and baked to ensure a smooth and durable finish, which is more eco-friendly. Our tube fabrics are either ORCA® Hypalon, from the standard bearer in commercial tube design, Pennel and Flipo in France or Valmex® PVC from the reputed Melher Texnologies in Germany. Our PVC tubes are exclusively assembled using thermo welding technologies, included internal tapes and baffles. This process ensures a much higher durability than glued PVC tubes.

Every Highfield boat is rigorously tested to strict ISO standards before leaving the factory. This comprehensive testing of all of our component parts during manufacture, and our 2 year structural warranty* on all of our boats, means you can have complete confidence in your Highfield RIB.

* Highfield warranty for leisure use only

Drawing upon all of Highfield's vast experience in producing inflatable boats, this lightweight, single deck dinghy was created with a very simple motto in mind - 'weight does matter'.

As their name suggests, the Ultralite's weight make them a real alternative for those who may have chosen a soft bottom tender in the past but would prefer a hard hull for its performance.

Ultralite tenders are roomy and strong, yet light and easy to transport. These little boats can be launched and recovered by a single person and are easily transported on a roof rack.

You'll be impressed by their high level of quality and degree of craftsmanship. The excellence of the finish only compares to the detail of the ergonomics. The simple layout is combined with an uncluttered design and numerous standard accessories complete the picture.

The Ultralites are made of 2.5mm thick powder coated marine grade aluminium for the hull & 1100 Dtex fabric for the inflatable tube.

ULTRALITE — RANGE

STANDARD EQUIPMENT

- ORCA® Hypalon or Valmex® PVC tube
- Welded seams (PVC)
- Flush mount non-return valves
- High tensile chromated & powder coated aluminum hull
- Self-draining deck
- Removable seat
- Lifting points and towing eyes
- Tow bridle points
- Anti-slip deck
- Light weight rubbing strake
- Full length keel guard
- Under seat bag
- Highfield dry bag
- Foot pump, oars, repair kit

OPTIONAL EQUIPMENT

- Boat cover
- Extra seat

OPTIONAL ADDITIONAL SEATING

All of our Ultralite's are perfect as a lightweight family tender. That's why we've designed them, as well as all of our Classic tenders, with optional additional seat bars that can quickly be slotted into place.

Our Ultralite tenders are roomy and strong, yet light and easy to transport.

UL240

Weighing just 37kg the UL240 is the smallest model in the range - ideal for shorter trips or family fun on the water.

UL260

Being slightly larger than the UL240 model, the UL260 can carry up to four people and can be powered by a 6hp engine.

UL290

The UL290 is built to handles an 10hp engine, to take you and up to three other passengers a little further.

UL310

With a dry weight of 57kg, the UL310 model remains light and easy to transport, whilst having room for up to 5 people on board.

UL340

The largest model in the Ultralite range has room on board for up to 6 people, and can be powered by a 20hp engine.

| Model | Length [A] | Beam [B] | Inside Length [C] | Inside width [D] | Weight | Deadrise [E] | Max Pax | Max Load | Max Hp | Shaft | Tube Ø | Airtight Chambers |

CLASSIC

260-380

Called the Classic because these really are the perfect all-rounder. Strong, lightweight and dry riding - all the things a good tender should be.

The high quality finish and luxury look belies the fact that this range of tenders has been designed to work hard. A durable aluminium hull coupled with full length keelguards make these ideal for those beach-hopping days with friends and family.

The large weight savings achieved compared to equivalent GRP tenders means you'll enjoy impressive performance with smaller engines, and with excellent payload capacities, the Classic range really does offer a tender for everyone.

A steering console option is available from CL340 upwards, turning the Classic into an easy handling runabout, perfect for having fun when you've anchored in a bay for lunch.

It's the details that make the difference, too. The raised floor means you'll keep your feet and kit dry, even in a very choppy sea, Davit lifting eyes are welded into the deck for easy launching and towing, and heavy duty rubbing strakes will give you peace of mind when coming back alongside.

STANDARD EQUIPMENT

- ORCA® Hypalon or Valmex® PVC tube
- EVA teak floor
- Welded seams (pvc)
- Flush mount non-return valves
- High tensile chromated & powder coated aluminum hull
- Self-draining deck
- Integrated transom supports
- Bow locker (Fit 24L fuel tank)
- Removable seat
- Lifting points and towing eyes
- Tow bridle points
- Anti-slip deck
- Heavy duty rubbing strake
- Full length keel guard
- Tank strap kit
- Under seat bag
- Highfield dry bag
- Foot pump, oars, repair kit

OPTIONAL EQUIPMENT

- Transom storage box
- Extra seat
- FCT console with electrical pack
- Boat cover
- Molded bow cleat
- Bow cushion

FCT CONSOLE
OPTION

The optional FCT console (pictured left & below) gives you forward-facing steering control for intuitive, easy handling with a centrally seated position for increased comfort and greater ease of navigation.

“The high quality finish and luxury look belies the fact that this range of tenders has been designed to work hard.”

CL260

The compact 2.6m model can carry 4 people, making it ideal for short trips.

CL290

This agile & strong 4-man model offers slightly more room with a 480kg payload.

CL310

Our easy handling 5-man craft is a great all-rounder. The aluminium hull features 3 lifting points. The standard bow locker is ideal for storing equipment safely.

CL340

This versatile 6-man can be fitted with an optional console to make it even easier riding. Bow locker & fuel tank storage as standard make this a popular choice.

CL360

A roomy 6-man model that combines an impressive 650kg payload with great handling. Front locker & fuel tank storage as standard. Optional console.

CL380

Our largest 3.8m CClassic makes a great 7-man tender with a large front locker & fuel tank storage as standard. Perfect for longer distances or larger loads.

| Model | Length | Beam | Inside Length | Inside width | Weight | Deadrise | Max Pax | Max Load | Max Hp | Shaft | Tube Ø | Airtight Chambers |
|--------|----------------|-------------|---------------|--------------|------------|----------|---------|--------------|--------|-------|----------|-------------------|

CL420

The CL420 is a perfect large tender with great internal layout options. Lightweight and capable, this boat can be built to suit your tender requirements.

CL460

The CL460 is a very capable Rib with excellent layout options and will suit multiple situations. A perfect beach hopper, great tender or excellent family day boat.

CLASSIC

420-460

The larger models in the Classic range (previously called the Ocean Master) continue to set the standard as the toughest, most capable and sea-worthy RIBs for their size on the market.

The flexibility and adaptability of the Classic design allows us to create either a practical family-friendly RIB, a luxury tender or a hard working support vessel.

Whichever model you choose, you can be assured that your Classic is built to last and specified with even the toughest of conditions in mind. Internal under-deck fuel tanks, a non-slip self-draining deck and a 24° dead rise let you take on anything that comes your way confidently. With the impermeable qualities of our aluminium hulls there's no need to worry about gelcoat chips, or putting the boat on a beach or trailer.

All Classic RIBs are easy to tow, launch and recover due to their light weight and integrated davit lifting eyes. Your Highfield Classic will not delaminate or absorb water over time, retaining the same agile performance in 10 years time as the day you collected it.

| Model | CL420 | CL 460 |

SP650

SP390

The range that has been 9 years in the making...

This range of high quality boats will offer a choice from 3 metres up to 8 metres and combines all of our Hull design expertise with an interior that you demand. Nothing has been sacrificed in the design of this range. Top quality materials are the hallmark of what we do and we have not compromised.

Hull deadrise angles ranging from 20 degrees on the 3 metre going through to a huge 26 degrees on the 650 and up will give you assurance in the toughest conditions but the additions such as EVA teak throughout, integrated fuel tanks, superb diamond stitched upholstery and bathing platforms on our larger models will allow you to enjoy each day to the maximum.

With the impermeable qualities of our aluminium hulls there's no need to worry about gelcoat chips, or putting the boat on a beach or trailer.

All Highfield Sport RIBs are easy to tow, launch and recover due to their light weight and integrated davit lifting eyes. Your Sport will not delaminate or absorb water over time, retaining the same agile performance in 10 years time as the day you collected it.

The Highfield Boats Sport range offers the very best solution for your requirement. Low weight garage tender or runabout, through to an offshore mile crunching cruiser.

SPORT — RANGE

SP800

PATROL — RANGE

The Patrol range of commercial quality RIBs are designed to work both excellently as a long distance family cruiser or a hardcore work boat. Built to withstand the toughest of conditions.

The hull is built from 5083 aluminium plates with 6 and 10mm stringers. With their super deep V, wide chines and large diameter tube, they offer high manoeuvrability, high safety and a soft dry ride even in the roughest conditions.

The range offers something for almost every requirement, from Sailing club support to Police and Rescue applications.

The Patrol boats carry large loads and plane quickly and easily with little horse-power. For charter boat and commercial operators, the modular set-up option means that we can build a layout that suits your needs. These boats are ideal pursuit craft or work boats and can be configured with different seating and console options. When safety, toughness & reliability really matter, the Patrol range should be your first port of call. With MCA rating & commercial coding available, the Patrol range is perfect for commercial chartering or working offshore too.

PA500

PATROL

420-540

STANDARD EQUIPMENT

- ORCA® Hypalon or Valmex® PVC tube
- Welded seams (PVC)
- Flush mount non-return valves
- High tensile chromated & powder coated aluminum hull
- Integrated transom supports
- Self-draining deck
- Integrated under-deck fuel tank (40L)
- Lifting points and towing eyes
- Tow bridle points
- Anti-slip deck
- Heavy duty rubbing strake
- Full length keel guard
- Highfield dry bag
- Foot pump, paddles, repair kit

OPTIONAL EQUIPMENT

- Jockey console
- Seats
- Rollbar
- Boat cover
- Brushed foam teak finish deck
- Bow step with roller
- Bow locker with seat cushion
- Rear tow post

An optional T-Top allows the Patrol models to become even more practical by offering more shelter and greater protection from the elements, creating a truly versatile all-weather RIB.
